To Whom It May Concern:

Psion Teklogix and Vertmarkets have worked together for precisely 5 years. Vertmarkets have hosted web banners, white papers, press releases, company & product information, email newsletters, and much more. During these past 5 years the relationship between Psion Teklogix and Vertmarkets has flourished into a great partnership.

Vertmarkets has impressed Psion Teklogix with the ability to generate leads and grow our client base. Not only has Vertmarkets generated leads, but they have also provided a number of added value opportunities including award nominations, editorial, etc.

Overall, the Vertmarkets partnership is very valuable to Psion Teklogix. I certainly believe that our relationship will continue and evolve. Specifically, Kirk Jackson has demonstrated an outstanding relationship with not only myself but with all he has been in contact with at Psion Teklogix. I recommend Vertmarkets as a strong partner.

Best Regards,
