

July 18,2006

Chris and LuAnn,

I would like to take this opportunity to thank Data Storage Connection for the outstanding service you have provided EqualLogic. Our partnership has endured for almost two years now, which speaks to the value of this program in our marketing mix.

EqualLogic is able to post new product announcements, press releases and case studies in a timely and effective manner on Data Storage Connection to ensure the news gets noticed by potential buyers. The results are a constant flow of reader download requests as well as weekly pre-qualified sales leads that are an effective ROI measure for our sponsorship. EqualLogic has been able to take advantage of the pre-qualified sales leads and confirm existing opportunities as well as identify new opportunities.

Thank you for your assistance in helping us promote our company.

Sincerely,

Devlyn Coelho
