

Toshiba America. Our scientific grade is A+.

Toshiba America Imaging Systems Division sets the standard with our wide variety of high resolution, high speed, scientific grade 3CCD color cameras for R&D, industrial and medical imaging applications.

From remote head to single piece models, our color video cameras are ultra-compact and light-weight. They feature Toshiba's legendary 3CCD prism block assembly and superior color fidelity.

To learn more, contact Toshiba America Imaging Systems Division today. We want your project to make the grade too.
