Dear Kirk,

I wanted to thank you and your team at VertMarkets for the support and impact you have had on IDENTEC SOLUTIONS Inc. sales efforts. Although, we are early in the relationship, the number of leads and exposure we are receiving to date has exceeded our expectations.

When we were designing our sales and marketing plan for this year we had thought an ideal situation would be to build an independent media marketing division that was considered impartial yet a leader in educating our markets. From this concept we knew that market leadership would provide leads as everyone would source that division. Vertmarkets was able to save us from building that concept internally and we are still able to reap the rewards.

We anticipate VertMarkets different platforms of editorial opportunities, to product feature-of-the-week highlighting & newsletter will provide IDENTEC SOLUTIONS creative ways to drive new opportunities.
Thanks again and we look forward to developing this relationship further.

Respectfully,

Roderick O'Keefe
