

LEDs.

Just the way you want them.

Custom wavelengths. Custom output. Custom testing.

No one gives you more options in visible and IR LEDs than Opto Diode. Built entirely in-house, we can customize wavelengths, power output, packaging, angle of emission, and testing methods to fit your requirements.

As one of the largest LED/LED array providers, we engineer, design, and manufacture LEDs and silicon photodiodes in our custom-built, domestic state-of-the-art wafer fab. The result? High quality, high volume parts with unsurpassed repeatability, at affordable prices.

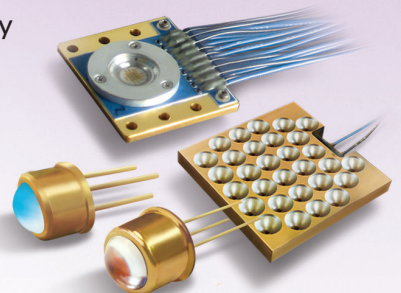

From military to industrial grade LEDs, contact us today. Opto Diode. Putting the power in your hands.

High Power Visible & IR LEDs

- 365 nm - 940 nm
- Fast prototyping
- High volume, low cost
- Highly reliable and repeatable
- Automated production
- Complete testing capabilities

Applications

- Medical
- Biotechnology
- Scientific
- Military
- R&D
- Commercial
- Industrial

On Shore. On Time. On Budget.
